CLUB UPDATE: Vaccine Card Mandate

Public Health Orders - Proof of Vaccination

We are writing to provide you with an update on the Tennis BC Hub's rollout of the Provincial Health Officer's BC Vaccine Card mandate.

The BC Vaccine Card mandate is a province-wide measure designed to help get everyone through this high-risk period, during which people who are unvaccinated are at greater risk of contracting and spreading the virus when participating or attending discretionary events and places. The Tennis BC Hub @Richmond is considered one of these discretionary places.

We understand that the decision to vaccinate or not to vaccinate is a personal one. However, the safety of all our club members is our greatest concern and we are committed to doing what is best for our whole Hub community. Following the Vaccine Card Mandate allows us to keep our facility open and reduce the risk of a Covid-19 infection for everyone.

Beginning Monday, September 13th, anyone **19 years or older** must have at least one dose of a COVID-19 vaccine, and by October 24th you must be fully vaccinated and have proof of this.

During the transitional period, from now to September 26, you may provide any of the forms of proof [listed in this document](#). For instructions on how to get your new BC Vaccine Card, please [click here](#)

This Tennis BC Hub requirement will be in place until further notice and is subject to adjustments at any time.

We thank you for your ongoing support and patronage.

Respectfully

Your Tennis BC Hub Team
