

Hi Kai and Steve,

Thank you very much for today's course, for taking the time and coming to teach us the specifics and give us more tools to run wheelchair programs efficiently.

Together with the introductory course that we took a few months with Steve and Michelle, we now feel, and I speak for the entire team, confident and ready to run wheelchair programs.

Kai, it was a great pleasure meeting you. What a treat having you share your knowledge and experience with us. Tennis Canada definitely has the right person leading this program. We would highly appreciate if you could send us the links to the videos you mentioned on how to run lessons.

Steve, thank you for your continuous support. You are our mentor and are very appreciative of your help. As mentioned, most probably the start date of the Westshore Rec program will be postponed by a week (Tuesday Sept. 18th). If you can come, great! If not, no worries, we promise that we will make you proud! Would also appreciate if you could send us the lessons plans you mentioned.

Michelle, a special thanks to you to as well for organizing the certification course with Kai. This would not have been possible without your support. Thank you for believing in us since the beginning and for providing us not only with the opportunity to run Wheelchair Tennis programs but also getting certified.

We hope registration numbers for the Westshore Rec program will increase. It might take time but we should not give up if we only get a few participants. We have to start somewhere and this is a perfect opportunity to start getting experience as wheelchair tennis instructors.

Cheers,

Jimmy
